PROFESSIONAL SUMMARY

Cloud Infrastructure Engineer with over 17 years of experience in enterprise IT infrastructure, including 6 years managing cloud platforms and 4 years specializing in multi-cloud infrastructure engineering.

Experienced in designing, implementing, and operating production cloud environments across Amazon Web Services (AWS), Alibaba Cloud, Microsoft Azure, and Google Cloud Platform (GCP). Currently responsible for managing 26 cloud accounts, operating 11 Amazon EKS clusters, and maintaining secure, scalable, and highly available infrastructure supporting multiple enterprise customers.

Strong expertise in Kubernetes platform operations, cloud networking, hybrid connectivity, cloud security, and production infrastructure management.

WORK EXPERIENCE

Cloud Infrastructure Engineer, PT Adicipta Inovasi Teknologi 2022- Present

- Manage and operate 26 cloud accounts across AWS, Alibaba Cloud, Azure, and Google Cloud Platform.
- Operate and maintain 11 Amazon EKS clusters.
- Administer cloud infrastructure including EC2, RDS, Redis, and Kubernetes.
- Design cloud networking using VPC, VPN, Transit Gateway, PrivateLink, routing, and Load Balancers.
- Implement custom Kubernetes networking and Karpenter.
- Configure cloud security using IAM, CloudTrail, GuardDuty, and Security Hub.
- Establish secure hybrid connectivity between cloud and on-premises environments.
- Design production-ready cloud infrastructure for development teams.
- Monitor infrastructure health, troubleshoot production issues, and optimize platform reliability.

Enterprise Infrastructure Engineer, PT Adicipta Inovasi Teknologi July 2009 - 2022

- Managed enterprise Windows Server infrastructure.
 - Administered Active Directory, virtualization, networking, and backup solutions.
 - Supported cloud adoption initiatives.
 - Maintained infrastructure availability through proactive monitoring and operational support.
-

EDUCATION

Bachelor of Computer Science

- Mercu Buana University
 - 2011 - 2015
-

KEY SKILLS

Cloud Platforms

- AWS
- Alibaba Cloud
- Microsoft Azure
- Google Cloud Platform

Kubernetes

- Amazon EKS
- Karpenter
- Platform Operations

Cloud Networking

- VPC
- VPN
- Transit Gateway
- PrivateLink
- Load Balancer

Cloud Services

- EC2
- RDS

Cloud Security

- IAM
- CloudTrail
- GuardDuty
- Security Hub

Operating Systems

- Linux
- Windows Server

- Problem-Solving
- Time Management
- Presentation Skills
- Networking

LANGUAGE

- Bahasa Indonesia (Native)
- English (Professional Working Proficiency)
